torrent CONSULTING | Agentforce

Agentforce Quickstart for Manufacturing

Transform Your Operations with Autonomous Agents in just 1 week

Manufacturers must balance production efficiency, supply chain complexity, and growing customer expectations. Disconnected systems and manual tasks slow teams down and limit agility. Agentic technology can streamline operations, enhance support, and drive smarter, faster decision-making on the shop floor and beyond.

HOW IT WORKS

In just one week, we'll stand up a working Agentforce proof of concept tailored to your business. You'll choose either a Service Agent or an Employee Agent, and we'll configure it to address a real use case — giving your team a hands-on look at how Agentic technology can drive results.

Service Agent

Enhance digital support by deploying an agent on your website or Experience Cloud site. Ideal for product microsites, Agentforce boosts engagement using your approved PDFs and content — no Knowledge Base required. Includes 1–2 use cases and integration with your case process.

Employee Agent

Empower your internal teams with an agent that delivers instant answers, automates repetitive tasks, and guides users through key processes. Ideal for streamlining HR, IT, or Ops requests inside Salesforce. We'll configure 1–2 high-impact workflows using your real business logic.

MANUFACTURING USE CASES

✓ **Automate Customer Support:** Quickly resolve common inquiries, reduce wait times, and free up human agents to handle more complex issues.

✓ **Dealer Engagement:** Enhance communication by providing dealers with real-time updates, personalized recommendations, and automated order processing, strengthening partnerships.

✓ **Field Service:** Streamline operations by scheduling technician visits, delivering real-time job updates, and accessing customer data on-site, improving efficiency and service quality.

TIMELINE

1 **Kick-Off & Discovery** → 2 **Configuration and Set-Up** → 3 **Solution Demo** → 4 **User Testing** → 5 **Deployment & Training**

PRICING

1 Week Agentforce Deployment	$12,500
